PARKING & ROADS: N/A (provided by landlord)

NOTES: Velocity Machine has arranged tenancy in the Sunray Properties II building, previously approved at 40 West 300 North.

My Name is Carlyle Creger and I am planning to open a machine shop in Hyrum city. This shop will provide small prototypes to various industries including medical, aerospace, and off-road, just to name a few. This shop will eventually run 3 shifts and employ as many as 12 people. Our niche in the marketplace will be our speed and our quality. I think this will be a safe and clean workspace that will attract talented machinists to work in Hyrum City.

NEW TENANT SITE PLAN (VELOCITY MACHINE)
