Hyrum Fire & EMS
Recruitment

Mayors Message – It was another great Star Spangled 4th of July Celebration. Our city council, office staff, city employees and many volunteers are to thank. I am grateful for their service and for the citizens of our community that make Hyrum a great place to live. I feel blessed to live in this great country.

Hyrum City's pressurized irrigation system provides secondary water to over 2,100 homes and properties within the city. The main goal of our Irrigation Department is to utilize the existing water supply in the best way possible to conserve water and yet provide the citizens of Hyrum with an adequate supply. Hyrum City owns water shares in Porcupine Reservoir, Hyrum Irrigation Company, Porcupine Highline Canal Company, Hyrum Blacksmith Fork Irrigation Company, and other miscellaneous places. Because of our water reuse project we are able to pump around one million gallons of treated waste water daily six months of the year into our pressurized irrigation system to supplement the water held in our ponds. This year we are beginning to expand the ponds so more water can be stored.

Sincerely,
Mayor Stephanie Miller
