

Major Arterial (100 ft ROW-Min.)
Minor Arterial (99 ft ROW)
Major Collector (80 ft ROW)
Minor Collector (66 ft ROW)
Regional Trail (20 ft Easement adj. to ROW or 20 ft wider ROW)
Provide local trails to connect to regional trail

In some ways the Minor Arterial is good here because it is more at the edge of neighborhoods instead of going through them. (Along edge of City property.)

In some ways the Minor Arterial should be at this location, but we kind of messed that up with limiting the right of way, unless we take more from the north side. The Minor Arterial should extend eastward across 165 to the edge of development, much like 300 South.
